Life at The Piper

Home is more than an address; it's a feeling. Home means having the freedom to do whatever you choose, while feeling safe and secure. Home means having your favorite things around you—photographs of people you love, books and mementos you cherish, and chocolate ice cream in the freezer. It's the comfort of being in your own space and the freedom to simply be yourself.

The Piper is designed with The Household Model, a philosophy designed to replace traditional facility floor plans and way of life. The unique environment honors privacy, fosters interpersonal relationships and promotes a quality lifestyle. For seniors who need support, The Piper provides the ability to live your life as you want, with the care of experienced staff who get to know individual preferences. We believe that residents should be afforded the respect, courtesy and care that everyone deserves. Residents at The Piper feel this every day. The Piper has redefined senior living services in the Kansas City metro with a unique approach to care.

We invite you to learn more about our community.

"Seeing is believing!"

Come, tour & experience the feel of home!

Assisted Living

When you're no longer able to stay in your home, Assisted Living at The Piper may be the best option. We offer individualized care, encourage socialization among neighbors, and promote a healthy, happy life. Residents have their own private apartment that includes a kitchenette, living room, bedroom and bathroom. Experienced professionals provide customized levels of assistance while helping preserve an individual's independence.

An open heart and an outstretched hand.

Assisted Living Services at The Piper

- Personalized monthly care packages to include help with daily activities, medication management, and a safe environment
- Household staff 24/7 and call response system
- Homemade meals in a family-style dining room served whenever you want to eat
- Weekly housekeeping plus laundry services for linens and towels
- Utilities, cable and Wi-Fi included
- Physician and personal appointment coordination
- Variety of events and activities at The Piper and in the community
- Salon available on site

Memory Care

At The Piper we work with residents, family members and caregivers to find the perfect balance of day-to-day care. We strive to build on the strengths of memories that residents retain, in a way that helps them live each moment with as much purpose, joy and meaning as possible. Our Memory Care has a touch of grace philosophy that radiates simple elegance for our seniors. Our guiding principles in a Memory Care philosophy called a “Touch of Grace” where we engage the five senses of sight, smell, hearing, taste and touch during our moment to moment interactions with our residents, families and caregivers. Through grace we focus on bridging the mental gap with enduring senses to reconnect with the memories from one’s lifetime by enriching the moments ahead.

Memory Care Lite

Memory loss progresses at different stages and different rates. Oftentimes, the only options are Assisted Living and Memory Care. For seniors who fall somewhere in between, there’s an alternative. With Memory Care Lite, seniors can safely enjoy all the benefits of living in a secure household where they can socialize with their neighbors and receive more cognitive support than traditional Assisted Living.

The caliber of care you'd choose for yourself.

Memory Care & Memory Care Lite Services at The Piper
